Professional Summary

Financial Analyst with 4 years of progressive experience in **Financial Planning & Analysis (FP&A)**, **financial modeling**, **variance analysis**, and **management reporting** across financial services and marketing sectors. Demonstrated ability to translate large-scale financial data into executive-level decisions through **Oracle Hyperion**, **SAP ERP**, **Power BI**, and **Anaplan**. Skilled in **SQL**-based **data modeling** and relational database querying, with hands-on use of **ETL workflows** and **Python** (Pandas, NumPy) to build and maintain reliable, audit-ready reporting pipelines. Consistent record of improving forecast accuracy, accelerating close cycles, and delivering audit-ready financial consolidation for multi-entity organizations.

Experience

Tokyo Electron (TEL)

Jul 2026

Financial Analyst

NY, USA

- Supported monthly FP&A reporting and forecast-load preparation in **Oracle Hyperion Planning (EPM Cloud)** for a subsidiary entity undergoing active consolidation into its global parent, partnering with FP&A leadership on actuals-vs-budget and actuals-vs-forecast **variance review**.
- Applied Excel-based reconciliation methods — **SUMIFS/COUNTIFS** tie-out logic and orphan-record detection — to validate budget, actual, and forecast data at the lowest reporting grain ahead of Oracle system loads.
- Contributed to a cross-functional **Oracle headcount load** process spanning payroll, headcount, and operating expense data, coordinating with FP&A and accounting stakeholders to align source data ahead of system load.
- Built proficiency in **Oracle Smart View** and **Hyperion Planning** within a live ERP consolidation environment, applying Excel, SQL, and **Power BI** skills to navigate multi-dimensional reporting cubes and validate source-to-target data during entity migration.

JPMorgan Chase & Co.

Jan 2026 – Jun 2026

Financial Analyst

NJ, USA

- Architected a multi-scenario **financial forecasting model** in **Anaplan** across 14 business units, compressing the monthly close cycle from 12 days to 7 days and saving 200 analyst-hours per quarter.
- Engineered **Oracle Hyperion Essbase** cubes for rolling 18-month **budget consolidation**, enabling real-time drill-down reporting that eliminated \$1.2M in manual reconciliation overhead annually.
- Constructed **Power BI** executive dashboards tracking 22 KPIs across revenue, cost, and margin dimensions, adopted by the CFO office as the primary reporting standard across 3 business divisions.
- Executed monthly **variance analysis** against budget and prior-year actuals across a \$4.5B operating portfolio, identifying root causes of \$380M in cost overruns and driving targeted corrective plans.
- Automated **Alteryx** workflows for data extraction, cleansing, and transformation from **SAP ERP** source systems, reducing report preparation time by 18 hours per reporting cycle.
- Partnered with Treasury on **cash flow modeling** and liquidity stress-testing, informing \$750M in capital allocation decisions across three fiscal quarters.
- Produced **Bloomberg Terminal**-sourced market intelligence reports supporting **FX exposure analysis** and interest rate sensitivity modeling for senior leadership reviews.

Epsilon

Nov 2024 – Jan 2026

Financial Analyst

NY, USA

- Overhauled the monthly revenue reporting framework in **Hyperion Financial Reporting**, consolidating 9 cost centers into a unified P&L view and eliminating \$95K in annual reporting redundancy.
- Developed **3-statement financial models** (Income Statement, Balance Sheet, Cash Flow) for 6 client portfolios totaling \$280M in managed spend, enabling granular profitability tracking.
- Synthesized **Salesforce CRM** pipeline data with **Oracle ERP** actuals to build a 12-month **revenue forecast model**, improving accuracy to within \$2.1M of actuals across 4 consecutive quarters.
- Deployed **Tableau** dashboards for ROI measurement and contribution margin analysis, reducing ad-hoc reporting requests by 34 per month.

- Conducted **cost-benefit analysis** and scenario modeling for 4 platform investments, delivering board-ready financial summaries supporting \$42M in capital expenditure decisions.
- Reconciled inter-company transactions across Sales, Operations, and Accounting to ensure compliance with **ASC 606** revenue recognition standards.

KPMG

Jul 2020 – Aug 2022

Financial Analyst

India

- Spearheaded **financial consolidation** and statutory reporting for 11 multinational client entities, delivering audit-ready packages within mandated **IFRS** and **GAAP** deadlines across 8 engagements.
- Modeled sensitivity and scenario analyses for a \$120M infrastructure client, quantifying 3 divestiture options that informed a board-level recommendation adopted by senior partners.
- Streamlined **SAP-to-Hyperion** data migration workflows using **Alteryx**, reducing reconciliation errors by 140 manual corrections per month across 6 client accounts.
- Prepared **Workiva**-based regulatory filings and financial disclosures for 4 publicly listed clients, ensuring full **SEC** and MCA compliance with zero restatements.
- Benchmarked operating cost structures using **Bloomberg Terminal** data, delivering 9 advisory reports identifying \$8.5M in combined cost reduction opportunities across client portfolios.

Education

Pace University Apr 2024

Master of Science, Data Science · New York, NY

Certifications

- **Analyzing and Visualizing Data with Microsoft Power BI** – Microsoft
- **Tableau Desktop Certified Professional** – Tableau (Salesforce)

Technical Skills

FP&A & Financial Modeling: Financial Modeling, **Budgeting & Forecasting**, Variance Analysis, **Scenario & Sensitivity Analysis**, Cash Flow Analysis, Cost-Benefit Analysis, **DCF Modeling**, Working Capital Analysis, KPI Development

ERP & Financial Systems: **Oracle Hyperion Planning**, Oracle Essbase, **SAP ERP**, Oracle ERP, **OneStream**, **Anaplan**, Workiva, Hyperion Financial Reporting

Business Intelligence & Reporting: **Power BI**, **Tableau Desktop**, **Alteryx**, Bloomberg Terminal, Advanced Excel (Power Query, VBA, XLOOKUP, Pivot Tables)

Accounting & Compliance: **GAAP**, **IFRS**, **ASC 606** Revenue Recognition, SEC Reporting, Financial Consolidation, Audit Support, Regulatory Filings, Management Reporting

Data & Automation: SQL, Python (Pandas, NumPy), Salesforce CRM Analytics, ETL Workflows, **Data Modeling**, Dashboard Automation

Cloud Platforms: **Microsoft Azure**
